Sultan Jacobs(He/Him)

Student at Johns Hopkins University

Hello! My name is Sultan Jacobs, and I am a Masters student here at Johns Hopkins University studying Data Science with a focus in AI. My undergraduate degree is in Biomedical Science from Texas A&M University. I want to combine my background in health sciences with my passion for data science to work in drug discovery and therapeutics development.

Projects

Here are some of my projects:

Personal Website

This was the first project for a Modern Software Course I had taken. It is a professional website created using html,css,python & Flask: GitHub Repository for Module 1 Projects
